

MMP INVITES YOU TO THE NEXT IN OUR SERIES OF WEBINARS

1.0 CEU credit for both nurses (AANAC)
And administrators (NCERS/NAB)

2018/2019 SURVEY UPDATE

The ever-changing Survey process
and what to expect

[REGISTER HERE](#)

Wednesday, January 9, 2019 at Noon

The Survey Process is ever-changing. CMS will introduce new "Hot Topics" for Surveyors to focus on. CMS has issued additional areas for surveyors to investigate; changes in scope and severity take center-stage; and federal follow-up surveys plague facilities.

This program will focus and take a deep dive into the Survey results from 2018. We will focus on the most-cited deficiencies and drill down to identify trends in the industry including:

- New deficiencies
- Scope and severity
- Immediate jeopardy
- Why certain F-Tags deficiencies continue to be cited
- New survey topics

[**Register Now**](#)

Also, of great importance is how to survive a survey. Survey readiness is what happens every day that the Surveyor does not step onto the floor - it's the all-in preparation for the day that he or she does! We will review the new trends in the Survey process: how to get ready; how to take control of the process and manage it while the Surveyors are in your facility; and how to respond to deficiencies. This webinar will help you improve outcomes as well as provide valuable tips on how to manage the survey process successfully.

Join Dr. Jim Wooddell, President of Dominion Enterprises as he shares his expertise as a past Surveyor on ways to remain compliant and survive a complex survey.

Please forward this invitation to others in your facility that would benefit from this informative session!
