

Centralized Pharmacy Model for Senior Living

MMP is built for senior living – tailoring every process around the needs of residents, caregivers, & families.

By exclusively serving assisted living & memory care communities, MMP brings a specialized focus that ensures better outcomes & stronger partnerships – simplifying complexity, enhancing efficiency, and elevating quality of care.

Consistency

Standardized processes across every community in your portfolio

Visibility

Unified reporting & oversight for clinical and operations leaders

Scalable Support

One integrated relationship that grows alongside your organization

MODEL COMPARISON

Centralized Model – MMP

Headquarter pharmacy with one centralized team

- ✓ Standardized processes support predictable workflows and consistent outcomes
- ✓ One integrated pharmacy relationship streamlines communication and speeds decision-making
- ✓ Centralized clinical and operational resources provide specialized community support
- ✓ Unified reporting and visibility strengthen oversight for clinical and operations leaders
- ✓ Consistent delivery schedules and STAT processes minimize care interruptions
- ✓ Strong alignment with value-based care and organizational risk-reduction goals

VS

Traditional LTC Pharmacy Model

Multiple regional satellite pharmacies and teams

- Multiple pharmacy locations with different processes, staffing models, and workflows
- Variability in packaging, delivery schedules, and accuracy depending on geography
- Inconsistent service levels and support across regions and communities
- Different points of contact for billing, refills, delivery, and clinical questions
- Limited visibility across communities due to fragmented systems and reporting

WHAT MAKES MMP DIFFERENT?

Exclusive AL & Memory Care Focus

Unlike general LTC pharmacies, MMP serves only assisted living and memory care communities – bringing deep, specialized expertise to every partnership.

One Relationship. Full Portfolio.

One pharmacy team, one point of contact, one integrated system – simplifying operations across every community in your organization.

Visibility for Leadership

Unified reporting gives clinical and operations leaders the real-time data they need to make faster, more confident decisions portfolio-wide.

Dependable Delivery & STAT Processes

Consistent delivery schedules and urgent medication protocols minimize care interruptions and keep your team focused on residents.

Resident & Family-Centered

Every process is designed around the needs of residents, caregivers, and families – keeping people at the center of every decision.

Value-Based Care Alignment

MMP's centralized model supports your organization's value-based care strategy and risk-reduction across all communities.

Simplify complexity. Enhance efficiency. Elevate care.

MMP's centralized pharmacy model delivers the consistency, visibility, and scalable support your communities deserve – from a partner built exclusively for senior living.
